

THE WESTON

MULTI-FAMILY FOURPLEX

Taking cues from its neighborhood, The Weston aims to bridge the gap between single-family homes and dense apartment complexes by proposing a fourplex. This fourplex reimagines desert urban living by celebrating a healthy lifestyle through access to cross-ventilation, natural lighting, and inspirational views. Its location on a major transit line facilitates residents' use of public transportation, providing access to nearby retail, dining, and entertainment. The design exemplifies a progressive shift towards a community-oriented, nature-centered lifestyle that enhances the overall character of the neighborhood.
